

## **WOLVERHAMPTON METHODIST CIRCUIT REVIEW (2013)**

---

**The vision of the Wolverhampton Circuit is that in the next ten years God will see our churches grow in:**

- **spirituality and discipleship**
- **faith and the quality of worship**
- **attendance at worship by 5%**
- **service, by working together through witness and work in the wider community.**

The assumptions made in arriving at our vision were:

- i) A healthy Church is a growing one, looking for and seeing growth in all areas of its life
  - ii) A healthy Church is one that seeks to deepen its relationship with God in worship, prayer and its devotional life.
  - iii) A healthy Church is true to Jesus's style of ministry, serving others, and reaching out to those outside the Church.
  - iv) A healthy Church is true to its prophetic tradition, being socially relevant, with a concern for the vulnerable and a passion for justice.
-
